Diploma, Film Editing & VFX

Hi-Tech Animation, 2019

STRENGTHS

- ★ Visual storytelling
- ★ Light, colour & composition
- ★ High-volume production
- ★ Team training & collaboration

PROFILE

AI Film Maker & Creative AI Content Generation Artist with 6+ years across post-production, cinematography, and visual design, currently leading GEN AI content workflows. Skilled in advanced AI prompt engineering for high-volume image and video generation, combined with strong Photoshop retouching and a sharp QA eye for spotting geometry, proportion, shadow/reflection, and material inconsistencies in AI-generated visuals. Comfortable working across content creation, retouching, and quality-review process paths within cross-functional creative teams.

With 6+ years behind a real camera as a cinematographer, I bring true filmmaking craft (light, lens, framing and colour) to every AI frame, so my AI videos look like real cinema, not just generated clips.

WORK EXPERIENCE

GEN AI Producer — AI Film Making & Content Generation | S-Tier India

OCT 2025 - AUG 2026

- ◆ Led AI-powered content production, generating high-volume visual assets using advanced AI prompting techniques while maintaining consistency and quality
- ◆ Designed and managed generative AI workflows end-to-end, from prompt engineering to final output refinement
- ◆ Performed in-house video editing and cinematography, ensuring visual output met brand and editorial standards

Cinematographer | Bila Boy Entertainment

2022 - 2025

- ◆ Shot, edited, and colour-graded content for short films and music videos
- ◆ Designed promotional graphics and thumbnails for digital platforms

Video Editor, Cinematographer & Graphic Designer | SB Cine Studio

2018 - 2021

- ◆ Edited event videos, promotional content, and advertisements across multiple formats
- ◆ Managed end-to-end production pipeline from shoot to final delivery

Video Editor & Graphic Designer | Cible

2017

- ◆ Created engaging visual content for social media and digital marketing campaigns

ADDITIONAL INFORMATION

- ◆ Available online portfolio demonstrating AI-generated and retouched visual content
- ◆ Strong storytelling and visual composition skills, honed across editorial and commercial projects
- ◆ Experience working in fast-paced, high-volume production environments
- ◆ Currently available — actively seeking new opportunities

LET'S CREATE TOGETHER!
